MDG-10 (Summary)
September 19, 1985

Topic from Interviewer: Do they have something they would like to say right now? I would like to continue the discussion of yesterday, how they conduct their study of people. Could they speak some more about how they observe people who are in relationships?

Title: More questions to the group: human relationships, their own trainees and lifespan.

Information on how they observe people as they are interacting with each other. What is really going on all levels they can perceive.

11:30 Do they classify the information they collect?
23:10 About observing closer relationships
29:11 Questions about trainees who come into the group and individuals who also leave the group.
46:20 How do they experience their lifespan?
52:00 On how individuals in the group perceive information.
